Customer # 41400

Commissioner for Patents
USPTO
P.O. Box 1450
Alexandria Va. 22313-1450

This is in response to a USPTO Claims Restriction Office Action mailed July 6, 2007 relating to patent application 10803,626; applicant Robert J. Rapp Customer #41400; Patent Examiner Truc T. T. Nguyen Art Unit 2833.

During the time allotted for filing a response to the USPTO applicant could not reach the Examiner; a message left with the office led to another Examiner (Mr. Leon) calling me; after a brief discussion Examiner Leon said that he would cancel the July 6th Office Action; and that Examiner Nguyen will be back mid August when he should be available to discuss the Claims Restrictions.

Applicant is eager to work with Examiner Nguyen to guarantee that his restrictions are fully addressed.

Included in this reply are additional restrictions that applicant is considering in response to Examiners claims restrictions, yet applicant would like to discuss the restrictions with Examiner Nguyen to guarantee that all of his claims restrictions are fully addressed.

The Claims Restrictions state that the primary claim is generic and applicant intends to restrict his claims in order to address Examiner's Claims Restrictions.

Thank You,

Robert J. Rapp

Very Respectfully
Robert J. Rapp
